

AUTOMATED ETENDERS SCRAPING STRUCTURE

SCHEDULED SCRAPER (WINDOWS TASK SCHEDULER)

- Automatically runs daily on weekdays at 08:00
- Scrapes eTenders API
- Rolling 14-Day period

Outcome:

- Clean & Normalised Data
- Deduplicated by Bid Number
- Compare against Master List

Outputs:

- etenders_active_raw
- etenders_active_raw_full
- etenders_master – All tenders ever seen (Append-only)
- etenders_delta – New / modified tenders seen this run

DATA STORAGE (STAGING LAYER)

- etenders_master.xlsx
- etenders_delta.xlsx
- Normalised to HF Schema

POWER AUTOMATE (INGESTION LAYER)

- eTenders SharePoint Online List
- Acts as the live database
- When Delta List is modified → Upload Delta List

POWER BI (REPORTING LAYER)

Business Logic:

- This week
- Last Week

By department, province, category
